ASSURANCE STATEMENTS

- 1) Professionally acceptable standards governing the care, treatment, and use of animals including appropriate use of anesthetic, analgesic, and tranquillizing drugs, prior to, during and following actual research, teaching, testing, surgery, or experimentation were followed by this research facility
- 2) Each principal investigator has considered alternatives to painful procedures.
- 3) This facility is adhering to the standards and regulations under the Act, and it has required that exceptions to the standards and regulations be specified and explained by the principal investigator and approved by the Institutional Animal Care and Use Committee (IACUC). A summary of all such exceptions is attached to this annual report. In addition to identifying the IACUC-approved exceptions, this summary includes a brief explanation of the exceptions, as well as the species and number of animals affected.
- 4) The attending veterinarian for this research facility has appropriate authority to ensure the provision of adequate veterinary care and to oversee the adequacy of other aspects of animal care and use.

Dear Dr. Goldentyer,

On September 20, 2005, we wrote to you asking to cancel our Animal Welfare Registration. Attached is our final annual report.

There are no longer any prairie voles at this institution. There were 42 prairie voles remaining in September 2005, and they were euthanized by exposure to carbon dioxide. We do not expect to conduct any further studies on animals subject to the Animal Welfare Act.

If you need additional information, please feel free to contact me at 910-962-3091 or sawrey@uncw.edu. If I am not available, please contact the regulatory compliance officer,
